## Report of Town Hall Building Committee.

---

Fellow Townsmen: Your committee having performed to the best of their ability the trust committed to them, respectfully submits the following report:

After consideration of various locations we decided upon the present one as being the most accessible and convenient. Mr. A. T. Ramsdell of Dover, an architect of experience and reputation, was engaged to furnish plans and specifications.

It was thought best to contract a portion of the work, and in pursuance of this plan bids were asked for on the cellar and foundation; Mr. M B. Goodrich being the lowest bidder, was awarded the contract.

The work of erecting the building and the furnishing of all necessary material, except the rough lumber, was also advertised, and the following bids received:

G D Proctor, Derry,	\$4,650 00
H E Bickford, Rochester,	4,490 00
W M March, Rochester,	3,876 34

We have no hesitation in commending the work of Mr. March as being of the very highest order, and we consider ourselves fortunate in securing the services of this gentleman. The figures given below will afford you an opportunity for a study of our work in other matters pertaining to the completion of the building.

## Report of School Board.

---

We are glad that we can present a good report of the schools.

The outlook for our schools was never more hopeful than now.

The teachers have done their work intelligently, discreetly, and conscientiously. We can truly say that good progress has been made in every course of study.

The pupils have been very regular in their attendance during the year, and have shown their interest by the amount of energy put forth to excel.

All of the schools have had twenty-eight weeks, with one exception, that of the Caverly school, which had to be closed in the fall at the end of six weeks, on account of pupils removing from the district.

The Centre schoolhouse has been sheathed, and other necessary repairs made. The plan was to paint both interior and exterior, but being unable to procure help during the summer vacation, we were obliged to leave it unfinished. Some necessary minor repairs have been made on some of the other schoolhouses.

The future prosperity of our schools will depend largely on competent teachers, and we would advise in promotion of the interest of this important work that the same teachers be retained if available.

Respectfully submitted.
